

POST-APPLICATION PERIOD REQUEST FOR RECONSIDERATION

Under section 60851 of title 2 of the California Code of Regulations, if the Bureau of State Audits or the Applicant Review Panel decides to exclude or remove an applicant from the pool of applicants being considered for selection to the Citizens Redistricting Commission, the applicant may request reconsideration of the decision if the decision was the result of an error relating to:

- Having a conflict of interest;
- Failing to satisfy the eligibility requirements for serving on the commission; or
- Failing to comply with the procedural requirements of the application process.

To request reconsideration of the decision to exclude or remove you from the applicant pool because the decision was based on an error, as described above, please provide the following information and submit it to the Bureau of State Audits by e-mail, facsimile, or delivery to the address stated at the bottom of this form.

This form must be received by the bureau no later than 10 days after the date of the notification that you were excluded or removed from the applicant pool.

Name: Cathy June Brown, Application ID 3652

Date of the notice of exclusion or removal: April 29, 2010

Description of the error that caused the exclusion or removal:

My application and two letters of recommendation were timely filed; unknown to me, my third letter of recommendation was filed late. I called the Auditors office on April 19, 2010 to see if my last letter had been received, but was told that because of the volume of letters received, they could not tell me if the recommendation had been received.

Description of the correct facts establishing that you should not have been excluded or removed:

The recommendation was from Michael Brouse, the Assistant Superintendent of Business Services of Panama-Buena Vista Union School District, and he submitted his letter on April 21, 2010. As the head of business services of a large school district with a looming budget crisis, he has been working around the clock to make sure our District can continue operation with as little disruption as possible. I spoke with Mr. Brouse on Thursday, April 15, and he assured me that his recommendation would be submitted the following day. Over the next few days, he was faced with an urgent project to complete that would allow the Board of Trustees to vote on a resolution allowing the District to secure temporary financing to cover upcoming deferrals in state apportionments. It was during this time that he overlooked the submission of my letter.

Description of any evidence or other information that supports the facts as you now state them:

Mr. Brouse submitted my letter of recommendation on April 21, 2010 with a letter of explanation.

If this request is being submitted more than 10 days after you were sent notice that were excluded or removed from the applicant pool, an explanation for why this request is being submitted late: N/A

I affirm, by signing or typing my name below, that the statements contained in this Request For Reconsideration are true and correct to the best of my knowledge.
